KANSAS CITY ELECTION TO-DAY.

Independent-Democratic Ticket in the Lead.

CLOSE VOTE BEING POLLED.

The A. P. A. Feeling High and an "Alleged" Assassin Takes an "Alleged" Shot at the Mayor.

KANSAS CITY, Mo., April 7.—A cold, damp atmosphere was on hand when the polls opened this morning to the greatest and biggest city election held here for years. The issue is strictly A. P. A. and anti-A. P. A., and the two principal tickets in the field are Republican and Independent-Democratic. Republicans and Democrats are indiscriminately. Henry C. Kump, ex-Republican Mayor, and a prominent banker is leading the independent ticket, and is supported by a faction strongly opposed to the A. P. A. and James A. Jones, a Police Judge and a member of the A. P. A. ticket, is receiving the solid support of the A. P. A.'s as their candidate. John S. Crosby is running for Mayor. The ticket is the other, and the other the ticket with him running for small offices. The largest vote of years is being polled. A great deal of scratching and noise is made, and it is late before an inkling of the result will be known. The Australian system is working successfully and peace prevails at the polling booths.

Saloons generally obeyed the closing order issued by Chief of Police last night.

State on Mayor, Treasurer, Auditor, police Judge, City Attorney, President of the Upper House, four members of the Upper and one member of the Lower House, and one member of the School Board.

At 12:30 indications were that the Kump ticket was leading. The tenth was led by the Jones ticket. The vote was claimed by the anti-A. P. A.'s. Whatever the result, it is generally conceded that both tickets will run very close.

With W. C. W., a man, an ex-convict, was arrested for illegal voting. No trouble was caused.

SYRACUSE, N. Y., April 7.—In an under-taker's room in Pompey lie the bodies of John Van Brooklyn, aged 80 years, and his two sisters, Eliza, aged 83, and Martha, aged 73.

All three died in the same house on the same day, pneumonia. The three were taken ill almost simultaneously.

Their brother called them Saturday morning and found them ill. He sent for a physician.

When the physician arrived he found that Eliza and Martha had been robbed of their money.

Eliza died soon afterward.

At the time Eliza died Wm. Van Brooklyn was sitting in the room awaiting the arrival of the physician, and nothing was done until told by the physician.

None of the three was ever married. They have been separated for several years, but have believed that Eliza and Martha never in their lifetime saw a railroad train. For seventy years they remained close to Pompey Hill.

LOUISVILLE, Ky., April 7.—Surprising developments came to-day in the count of the votes at the Republican primaries yesterday afternoon and to-day. The morning papers reported that the primary in favor of Bradley, giving him ninety-eight delegates, to McKinley's seventy-three.

When was announced it seemed to the public that McKinley had failed to claim the election by large odds. They say McKinley wins 123 delegates to Bradley's seventy-two.

Mr. Bradley, however, has not yet had time to represent them before the District Committee, with many friends. They still claim he has carried the district, although it is extremely doubtful.

An A. P. A. Victory.

BLOOMINGTON, Ill., April 7.—The election of members of the City School Board was an exciting event. The women participated in large numbers. The victorious candidates were: C. C. Clegg, Mrs. M. F. Funk and Mrs. Stephen Akers. The result was celebrated by the American Protective Association as a victory for the organization.

TO THROTTLE SILVER MEN.

Ex-Congressman Hurd Tells How Gold-bugs Hope to Win at Chicago.

Ex-Congressman Frank Hurd of Toledo, O., is at the Southern on route to Hot Springs, Ark, for his health.

He is a hard-working tariff reformer, and, though he has not been in public office since 1884, he has watched with keen interest the progress of the movement with the starting of which he had so much to do and has not abandoned hope of seeing absolute victory.

"I am a goldbug in the strictest meaning of that term," said the distinguished Ohioan to a Pacific-Despatch reporter. "In fact, I consider that two principles are the cardinal doctrine of Democracy. Protectionism is the hand-maid of an independent monetary system. In other words, we are to wall our country in a high tariff, and then, if at all—though the oceans are to be treated as seas of flame cutting us off from all the rest of the world—then we are to have a certain amount of gold and a certain amount of silver to sustain our own monetary system. In that case, we could use silver, rags, paper, or buffalo chips as the standard of value. But we are to keep the standard of civilization we must throw our ports open to the world and trade on free terms with all the nations of the earth. To do that we must use the standard money of civilization, which is gold."

"I am not against silver per se, but am against a high tariff, a standard of value, and measurement, and since gold is the most precious of the two metals I want to see that this country's financial system kept on the lines of the standard of value, which is gold."

"The time may come when silver will be the more precious metal, and if I am then alive I will be just as ardent a silverite then as now."

"However, flatism in all its forms is a very alluring theory to shallow minds and it is hard to combat. For that reason I am dubious about the ultimate success of the Chicago convention, which I mean to make known to the world, and it hasn't been called yet. By that I mean that our four delegates-at-large will be pronounced goldbugs, and to the district delegates—an instruction to the unit rule, and that the silverites will about split even with us, or maybe will get a majority. If, however, the goldbugs control the state convention we will adopt the unit rule and that the hands of the silver men when they get to Chicago."

"I can do this it may make us master of the situation in the National Convention for Ohio's solid vote added to that of New England, New York and Pennsylvania, we will come out on top, and the single gold standard. We will pick up a good many scattering votes from the South, Louisiana, Georgia, and certain Michigan, Indiana, Minnesota, and Missouri will support sound money."

Mr. Hurd, like all Ohioans irrespective of party, is a hard-working tariff reformer, and, though he has not been in public office since 1884, he has watched with keen interest the progress of the movement with the starting of which he had so much to do and has not abandoned hope of seeing absolute victory.

INSTRUCT-THE-DEP.

Every Missouri county that is yet to hold a convention should be careful to instruct its delegates to Sedalia to vote only for known and avowed free silver men as delegates to the National Convention.

This is now the only question at issue. And it is the most important one. No one pretends to doubt that Missouri Democrats are overwhelmingly against the Administration's financial policy, and for the free coinage of silver at the historic ratio. The Sedalia Convention is certain to ratify and endorse the Perte Springs platform and to command it to the acceptance of other Democratic States, as well as of Mississippi, which has already adopted it as its own. The vital point now is the delegation to Chicago.

The overwhelming victory of the free silver men, after a contest with a fractious minority which has lasted more than a year, will be rendered, comparatively fruitless if Missouri's voice in the National Convention is made discordant by a divided delegation.

To accomplish this is all that the Administration factionists now hope for. It is all that is expected of them by Mr. Cleveland and his Eastern advisers. They first tried bulldozing in order to attain this. Now they are appealing to the mercy of the victors.

This appeal must not be heeded, any more than were the threats. Not in anger—not to inflict personal humiliation upon anybody—but in the interest of the Democratic party and for the sake of a great Democratic principle which has been imperiled by treachery. Missouri must send a free silver delegation to the Chicago convention. To do less than this, after a victorious battle for it, would be fatuous and ignominious surrender. It would itself be treachery to the party and to the cause.

A BREATHING SPELL FOR BOODLERS.

The March Grand-Jury concluded its labors and adjourned Monday without indicting any of the members of the Municipal Assembly for bootlegging or other corrupt practices. It was after several of these suspected parties, however, with a sharp stick and kept some of them guessing at a lively rate. Prominent among the guessers were those members of the Sanitary Committee of the House of Delegates who obstructed the report on the dairy bill and opposed its passage, and also those members of both the House and Council who voted last December for the granting of the Manchester road franchise. And there were others.

These suspects may breathe freely until the impaneling of another Grand-Jury. But they are not out of the woods yet. With succeeding sessions of the grand inquisitorial body new and more direct evidence may be collected and adduced.

It may not be an axiom of the law, but it is a pretty well settled fact "that as long as he's alive a public official is liable to indictment for wrong doing."

Many Grand-Juries came and went before Boss Tweed was put into a strait suit. The same was true of Jake Sharp and his wicked partners in the Broadway franchise steal in New York; of Chicago's bootlegging County Commissioners a decade ago, and of the

corruptionists of recent and malodorous memory.

St. Louis boodlers can only count themselves beyond the reach of justice when they are buried.

Country delegates to the Sedalia Convention should pay no heed whatever to the dealers and dickers among ward politicians, by means of which a few gold-standard racoonists will go up to the convention from St. Louis as yoke-mates of free silver delegates. Nobody is bound by these dealers and dealers except the persons who make them. They are not made in the party's interest, but for purely personal and selfish advantage.

The majority at Sedalia should pay no more heed to them than to any other arrangement between private individuals in which the party's welfare is ignored.

Nobody is bound by these dealers and dealers except the persons who make them. They are not made in the party's interest, but for purely personal and selfish advantage.

OPENING NIGHT OF GRAND OPERA.

"Romeo et Juliette" Presented by
Abbey and Grau.

JEAN DE RESZKE'S NIGHT.

His Romeo a Triumph, While Mme.
Melpa's Juliette Was Something
of a Disappointment.

RECEPTION TO SATOLI.

Great Homage Will Be Shown the
Cardinal by St. Louisans.

Great preparations have been made for the reception of Cardinal Sestoli to St. Louis. The distinguished churchman will arrive in the city at 6:50 o'clock Tuesday evening, and every effort is being made by the Catholics of this city to make the occasion a most memorable one.

Monday evening Archbishop Kain, Frs. M. W. Tobyn, James McCaffrey, James Bourke, James J. McCabe and Joseph Schaefer, Brother Paulian and R. C. Kerens, Jr., left for Cincinnati in the private car of Hon. Richard Karcher, which had been placed at their disposal. On the return the Cardinal will occupy quarters in the car.

Another large delegation left Union Station at 3 o'clock Tuesday afternoon to meet his Holiness at Copley. In this delegation numbered 30 persons and was conveyed in a special train of six cars. The train was decorated with United States flags, the Cardinal's colors and the Papal colors.

This delegation is headed by thirty-five priests. With them is the Cardinal's Brother, Cardinal of thirty-five priests, the Presidents of the four diocesan conferences of the Society of St. Vincent de Paul; twenty-four members of the Marquette Club; representatives of the Knights of Columbus; the President of the local branches of the Catholic Knights of America and laymen from each parish in this diocese.

The Union Station the noted visitors will be taken in charge by the reception committee and escorted to the Archiepiscopal residence on Lindell boulevard, where Cardinal Sestoli will rest, preparatory to the round of duties devolving upon him during his stay.

HIS OLD FRIEND "MAC."

Green B. Raum Sees a Possibility of Mc-
Kinley Being Slaughtered.

Gen. Green B. Raum, who was Pension Commissioner during President Harrison's administration, arrived in St. Louis Tuesday morning and registered at the Southern.

Though he says he is here on purely private business, he thinks it probable that he may get around among the prominent local Republicans before returning to his home in Chicago.

In reference to the National situation, he said to a Post-Dispatch reporter:

"There is no doubt that McKinley is now in the lead for the nomination. Sentiment in the country is in his favor, and he has the support of the press."

He said: "Armour is likely to make a heavy advance in wheat. It seems to me that Mr. Armour must be a heavy buyer."

Redmond Cleary said: "Mr. Armour's prediction may mean something. With his money he can do a great deal. He has a great deal of money, I believe that he could put it to if he wants to try it. Chicago winter wheat has been going out rapidly, and I do not expect any of these contingencies. We are certain to have good crops this year, and when out of the range of probabilities, I am informed that the plowing done in the Dakotas last fall, when only a few inches of snow fell, and is now melting, is the best seed we have."

REV. KNAPP AND THE TURKS

It is Reported That the Missionary Is Confined at Diarbekir.

CONSTANTINOPLE, April 6, via Sora, Bulgaria, April 7.—Advice received here today indicate beyond any reasonable doubt that the Rev. Mr. George C. Knapp, one of the American missionaries at Bitlis, is confined at Diarbekir, capital of the vilayet of that name in Turkish Armenia, and other serious international complications are more likely to follow.

It is further announced that the Rev. Knapp is to be sent to Alexandria, a seaport on the Bay of Iskanderon, opening into the eastern portion of the Mediterranean, and that he will be speeded out of the country or delivered to the representatives of the United States.

There is reported that the United States flagship, Minnesota, commanded by Admiral Selfridge and the cruiser Marblehead, will shortly appear in the Gulf of Sora, and that at that time a formal protest against the treatment of the American missionaries may be made to the Turkish Government.

The American Ambassador at Bitlis, Mr. Thomas, has advised the Turkish Government to make a full and adequate indemnity for the damage recently done to property.

The imprisonment and proposed expulsion of Rev. Knapp is, however, understood to be a preliminary to the expulsion of all the Christian missionaries, mostly American, from Turkey, and possibly from Asiatic Turkey, as well. Besides, it is rumored that a new and more American Crozat Society, now distributing relief funds in Asiatic Turkey, are also to be expelled from that part of the Empire. In support of this report it is stated that an American body, providing for the expulsion from Turkey of the Christian missionaries and agents of the American Crozat Society, has been signed by the Sultan, although it has not yet been issued from the palace.

The Turkish officials assert that the Rev. Knapp has been accused of treasonous movements among the Armenians in spite of several official warnings, but Mr. Knapp has denied the charge.

The American missionary, nevertheless, was informed that it had been decided to try him before a military court on the charge of conspiring against the Turkish Government, and was notified to appear for trial. Mr. Knapp, however, refused to do this, he would not consent to have Mr. Knapp tried in the manner proposed, and it was later decided to try the missionary here in the name of the Sultan, who was unable to travel to this city. Hence it seems, his arrest and imprisonment at Diarbekir.

It is impossible, according to report, that the British Government may take immediate steps to protest against the expulsion of Rev. Knapp, and the Marquis of Salisbury, in this instance, will be supported by the French Government.

THE LAST STRAW.

King Alexander of Servia Wants to Wed an American Heiress.

BERLIN, April 7.—The proposals of marriage made by King Alexander of Servia have been rejected by half a dozen European princesses, and Princess Anna of Montenegro has jilted him. It is announced that ex-King Milan of Servia will start for New York in May with the express purpose of finding an American girl with whom he can be sure will be willing to marry King Alexander.

King Pasha, as Alexander is nicknamed, is a member of one of the most offensive and dissolute youth clubs to be found from the Bosphorus to the banks of the Tigris. His manners are coarse and brutal in the extreme, fully in keeping with his beetling brows, low forehead and almost bestial nose and jaw, while the opinions which he voices are in full accord with those of McKinley and his managers in the matter of the rearing of cynicism and disillusion that is revolting indeed.

The King of Servia will also have to satisfy the caprices of her all but amiable father-in-law, who is an incurable spendthrift. His wife's poverty has caused his deterioration. His wife, though tall, gaunt, turgid, shameless and erratic reign. After a long career of profligacy he deserved his country in a most critical hour.

RIOTING IN HAYTI.

Ten Persons Killed and Several Houses Burned.

NEW YORK, April 7.—A riot occurred at Jacmel, Hayti, on March 27. The marauders burned several houses and killed it is said, ten persons, women and children had to flee from their homes to the poorer quarters to mansions outside the city for safety. The fighting became so general after nightfall that the British Royal Mail steamer, Prince Wilhelm IV, had to leave the harbor without her clearance papers and pass through the British blockade. The vessel had just arrived here, bringing a number of Haitians who were banished because of their display over the death of President Hippolyte.

RIOTING IN NICARAGUA.

A Brief Truce, Another Battle Takes Place.

NEW YORK, April 7.—A special to the Herald from Panama, Colombia, says:

After a truce of fifteen days during which all stopped on both sides, the rebels between President Zelaya of Nicaragua and the leaders of the rebellion have been futile, the rebels have had to fight again. The Government forces and the revolutionaries are La Ceiba. The number of men engaged was about 500 on either side. The action lasted about eight hours and details received are

SUICIDE'S INCINERATION.

Ashes Will Be Placed on Exhibition for Orphans' Benefit.

The body of Henry W. Selmer, the 1st. Venon, a suicide, was incinerated at the Missouri crematory in this city Tuesday morning. Only a few members of his secret society lodge witnessed the cremation.

Seiner shot himself in the head Sunday morning in his Mt. Vernon home to rid himself of the pains caused by heart disease and asthma.

He was known to be one of the most eccentric of his neighbors and to capriciously fire a pistol, but spread rapidly and soon began to treat the flesh. His father and uncle had died from Cancer, and he sought the best medical aid in different cities, but it seemed impossible to check the disease. Several operations were performed but the cancer always returned. This continued for years until the partition in his nose and his entire upper lip were eaten away. All treatment having proved futile, he looked upon death as the only relief.

"Some one recommended S.S.S.," he says, "and a few bottles afforded some relief; thus encouraged I continued it, and it was not long before the progress of the disease seemed checked. I persevered in its use, and remarkable as it may seem, I am extremely cured and feel like a new life. S.S.S. is the most remarkable remedy in the world, and everyone will agree that the cure was a wonderful one."

A Real Blood Remedy.

Cancer is in the blood and it is folly to expect an operation to cure it. S.S.S. (guaranteed purely vegetable) is a real remedy for every disease of the blood.

Eight Horses Were Cremated.

The fire, state officials said, was started in the Fifteenth and Clark avenue. The horses were due to a defective fuse and started in the east wing.

The sisters sounded an alarm, then marched the children to the cemetery to vacating the horses. It was not necessary as the firemen easily extinguished the flames.

CHALLENGE TO CORBETT.

Prisoner in the City Jail Desires a
Finish Fight.

Ex-Champion Corbett's visit to St. Louis
to cajole a horde of hero-worshippers at 50 cents each has also brought with it a fresh distinction in the shape of a challenge with bare knuckles to a finish.

The ex-champion visited Capt. O'Malley
at the Four Courts yesterday, the captain
being an old acquaintance of his. The champion
had lived at the same time in the same
part of Ireland. The appreciation of Corbett's
championship by the Four Courts' chaperones
was the cause of the hold-over, the court rooms, the morgue, the gallows
and lastly the City Jail.

One in the neighborhood had heard that Corbett was in
the building and an awful crowd jammed the
halls and corridors—all anxious to get
a gander at the champion. When he
was in the jail a guard gave Corbett a card,
on the back of which was written in lead
pencil:

"Will challenge you to fight me in a
twenty-four-foot ring, anywhere on earth,
any time before Sept. 1 and after June 7,
any time in 1898 pounds weight, with no gloves. Call
at 27."

The episode was amusing to the fighters
and a wild scene followed, a gall you
awaiting trial on a charge of assault.

Johnson stoutly maintains that he
nothing about the card, that he did not
write it, and that he did not receive it.

His mate, however, an elderly man
who can hardly stand alone, avers that he
saw Johnson had written the card and
had given him a "trusty," but the latter in-
dividual had forgotten from which cell he
got it.

Corbett does not think it probable
that he will accept the challenge, as he
has expressed a desire to meet Fitzsimons.

**One as good
as another.**

It is easy to say that
one preparation is as
good as another, and it
is easy to waste money
by buying something
you know nothing
about—and receiving
no benefit. When the
body is weak and you
want to give it strength,
when health is failing,
what wisdom is there
in experimenting with
a substitute, when for
a few cents more you
can buy the original
article? For more than
twenty years Scott's
Emulsion has been the
standard Cod-liver Oil
emulsion. It contains
more pure Norwegian
Cod-liver Oil than any
other emulsion in the
world, and will stand
the test of time as
being a perfect, insep-
arable emulsion. You
can't afford to take a
substitute for it.

elected Sheriff in 1896 and is now under
the control of the county officials now
holding their offices as the beneficiaries of
the monstrous election frauds of 1896.
